HCE-C252RD

OPERATION / UTILISATION / FUNCIONAMIENTO

Rearview Camera Operation / Utilisation de la caméra de recul / Funcionamiento de la cámara de marcha atrás

Turning the Rearview Camera On and Off / Activation et désactivation de la caméra de recul / Encendido y apagado de la cámara de marcha atrás

- Place the vehicle's transmission into reverse.
- The video images behind the vehicle and its surroundings are displayed while in reverse.
- Shifting out of reverse returns the display to what was being shown before being backed up.
- Refer also to the Owner's Manual of the connected monitor/navigation system.
- Be sure to also check around and around the car visually. Use the camera image to assist in showing conditions behind and around the car.
- Depending on where the unit is installed, actual conditions may differ from the displayed image.

REAR VIEW CAMERA (HCE-C252RD) is designed for use with Alpine AV head units or navigation systems with touch-screen operation.

CAMERA (HCE-C252RD) exclusively avec des unités principales AV ou des systèmes de navigation munis d'un écran tactile de marque Alpine.

Special Instructions for Pickup Truck Installations/Instructions spéciales pour installation sur un pickup/Instrucciones especiales para las instalaciones en camionetas

(HCE-C257FD is inapplicable./HCE-C257FD est inapplicable./HCE-C257FD no es aplicable.)

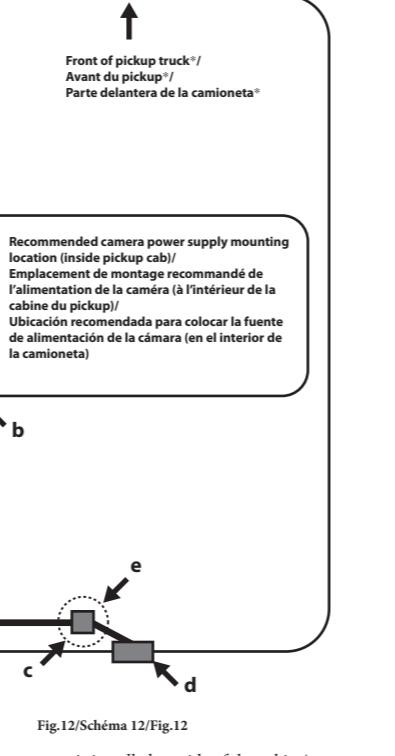

Fig.12/Schéma 12/Fig.12

* Any type of vehicle, including pickup truck, where the connector is installed outside of the cabin.
* Toute type de véhicule, notamment des camionnettes, où le connecteur est installé hors de la cabine.
* Cualquier tipo de vehículo, incluidas las camionetas, donde el conector se debe instalar fuera de la cabina.

Changing the Rear Image Configuration / Modification de la configuration de l'image arrière / Cambio de la configuración de la imagen trasera

- Touch the screen while the camera image is displayed.
- Touch [Back], [Panorama], [Corner] or [Top] to choose the viewing angle.

[Back]: Rear View

Displays an image of the area behind the vehicle. Use this when backing into a parking space.

[Panorama]: Panorama View

Displays a general perspective of what is behind the car. Use this when you want to determine the car's position in relation to the curb.

[Corner]: Corner View

Displays a divided image left and right of the center. Use this mainly when checking the left and right directional views.

[Top]: Top View

Displays an image from above down to the lower section of the car. Use this when determining the car's position in relation to the curb.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Top]: Top View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Top]: Top View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Top]: Top View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Top]: Top View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Top]: Top View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Top]: Top View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Top]: Top View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Top]: Top View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Top]: Top View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.

[Corner]: Corner View

Shows a divided image of the parts situated to the left and right of the center. Use this mainly when checking the visibility directionally.
